

THE NEW
VOLVO XC90

The Volvo XC90 is a haven, a place where you can relax, think and travel in first-class comfort. Where contemporary Scandinavian design meets Swedish craftsmanship. Where quality materials will delight your senses and put comfort at the heart of every journey. And where an intuitive centre display with touch screen helps keep you connected and in control.

Whether driving along the highway or negotiating urban traffic, our intuitive technology makes the journey easier, leaving you to enjoy the ride. The unique Volvo driving experience is further enhanced with sophisticated powertrains that give you performance and efficiency, so you never have to compromise.

And with the very latest in safety innovations, you will travel safe in the knowledge that your XC90 will always look out for you, your passengers and the world around you.

The XC90 represents our distinctive take on what it means to drive a luxury car in the 21st century. The XC90 is a sanctuary. Designed Around You.

Travel first class in the Volvo XC90.

This is the first of a completely new generation of nimble Volvo steering wheels, combining a graceful rounded square in the centre with a contemporary interpretation of our classic three-spoke design.

Jewel-like touches such as controls with diamond-knurled finish and translucent edges underline our designers' meticulous attention to detail.

The four-zone climate system can be controlled from the centre display touch screen, or a graceful touch control panel at the end of the tunnel console.

INSIDE YOUR CAR

Your own space, wherever you go.

Travelling in the XC90 always feels special - from the moment you pick up your sculptured remote control key. In the lavishly appointed cabin, luxurious materials and superb craftsmanship meet with uncluttered elegance. The airy interior gives you the luxury of space and calm - no matter which of the three seat rows you sit in. Our Clean Zone technologies filter out harmful gases and particles, ensuring that you and your passengers breathe easy - even in polluted cities. And you'll love our 19-speaker Premium Sound by Bowers & Wilkins, which offers sublime concert - quality sound for the most exacting audiophiles.

Fine Nappa Leather Blond in Blond/Charcoal interior UC00 | Linear Walnut

YOUR SANCTUARY. Where everyone travels first class.

With the interior of the all-new XC90, we have created a space that combines contemporary luxury with timeless seclusion. A place where you and your passengers travel in first class, no matter where you sit. Each sculptured seat is sumptuously finished and beautifully designed, offering all the comfort you expect from a Volvo car.

*"Turn the centre display into
an extension of your
iPhone® using Apple CarPlay™."*

Connecting you with a world of entertainment.

Get closer to the music you love, no matter which seat you're in. With Sensus Connect all of your music is available all of the time, whether it's direct from your favoured media source or streaming from the internet.

It all begins with the 9-inch centre display, the control centre for Sensus. The surface responds to the lightest of touches - you only need to brush your fingers over the glass to operate the controls. It even works with gloved hands.

Premium Sound by Bowers & Wilkins gives every occupant a Superb audio experience, no matter which seat they are sitting in. Developed with Bowers & Wilkins, creators of high-end audio, this innovative technology brings exceptional clarity and realism to your favourite music. There are 19 speakers, allowing everyone in the car to get the best possible sound, all the time. And you get closer to the performance by using one of the system's three room modes to bring the music to life.

THE RIGHT EQUIPMENT FOR YOUR DRIVE

XC90 MOMENTUM

Includes :

Exterior :

19" alloy wheels | Aluminium roof rails | Bright deco exterior, front | LED headlights with automatic lever adjuster | Dual visible end pipes in chrome | Front grille high gloss black with chrome frame | Park assist, rear | Power operated tailgate | Retractable rear-view mirrors

Interior :

4-way power adjustable lumbar support, front seats | Cargo opening scuff plate in stainless steel | Comfort seats with leather upholstery | Crossed Brushed Aluminium decor inlays | Interior mid level illumination | Metal tread plates, front and rear | Uni deco inlay in steering wheel

1. XC90 momentum with LED illumination and 19-inch wheels. | 2. Signature LED illumination, the high gloss black grille and right deco exterior details contribute to a both powerful and elegant appearance (Momentum). | 3. The raised aluminium roof rails enhance the SUV style (Momentum). | 4. Cargo opening scuff plate in stainless steel for stylish and convenient loading (Momentum). | 5. R-Design is available for all powertrains. | 6. Dual integrated end pipes for a distinctive road presence. |

Inscription

1. The signature headlights with LED illumination combine a distinct with excellent vision in the dark. | 2. Inscription front grille in elegant chrome finish. | 3. Dual integrated end pipes and bright decor trim add to an elegant and powerful impression. | 4. XC90 T6 AWD Inscription, 717 Onyx Black metallic, 21" 8-Spoke Silver Diamond Cut alloy wheel. | 5. The intuitive 12-inch driver display with four graphic modes. | 6. Drive mode scroll wheel in diamond patterned metal finish and the optional Linear Walnut decor inlay. | 7. The lower door bright deco moulding with Inscription. | 8. Leather key remote.

INTELLISAFE

We are committed to making driving easier and safer. Our vision is that no one should be killed or seriously injured in a new Volvo car by 2020. Today, our IntelliSafe technologies support you while driving, helping to prevent accidents and protecting you if one occurs.

Safer, more comfortable driving
Every journey is effortless with Adaptive Cruise Control, which automatically maintains a safe distance from the vehicle in front. At speeds below 50 km/h our Pilot Assist technology works alongside this to help you stay in lane with gentle steering inputs.

Bird's-eye view
With 360° Surround View technology you get a bird's-eye view of your car and its surroundings so you can see obstacles all around you. It makes parking and manoeuvring in tight spaces simple.

Apple Carplay
Allowing drivers to seamlessly integrate their iPhone and its apps with the touchscreen display. Not only can the phone be controlled using the touchscreen, but also by Siri voice commands. The XC90 will be the first car to offer this functionality.

Helping you turn safely
Our world-first intersection braking technology makes one of the most common - and damaging - types of collision less likely to happen. If you are about to turn into the path of an oncoming car, it detects if a collision is imminent, braking for you to reduce the severity of an impact, or avoid it all together.

Staying alert
If you are getting drowsy or inattentive at the wheel, Driver Alert Control will alert you and prompt you to take a break. The Rest Stop Guidance function can even tell you where it's safe to stop.

Protecting what's most important.

Protecting you and your passengers has always been our priority at Volvo Cars, and our latest generation of cars does more than ever to keep you safe. From preventive technology that helps you avoid collisions to protective features that cushion the impact of any collision, we will never stop innovating in order to improve your safety.

Your Volvo surrounds you with protective safety. The foundation for our new generation of cars is a very strong passenger compartment that uses a high percentage of ultra high-strength (boron) steel to create a protective cage around you and your passengers.

Volvo Cars gave the world the three-point safety belt in 1959 and our latest developments continue this commitment to life-saving inventions. Run-off road Mitigation is an emergency system which intervenes with steering inputs and brakes if it detects you are about to come off the road.

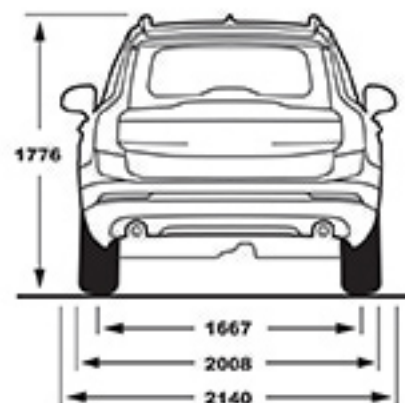

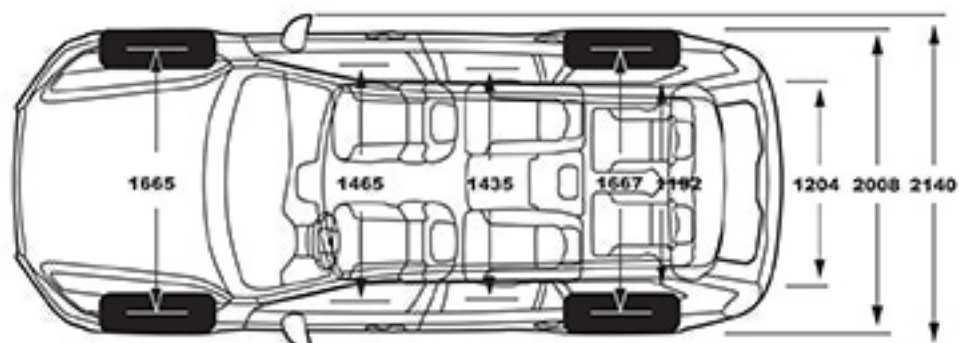

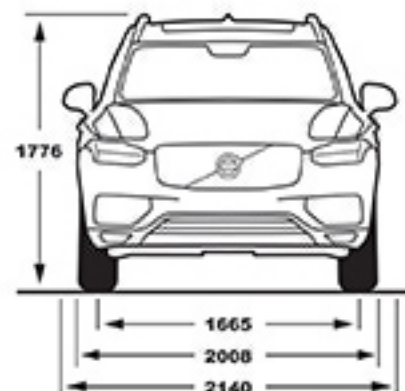

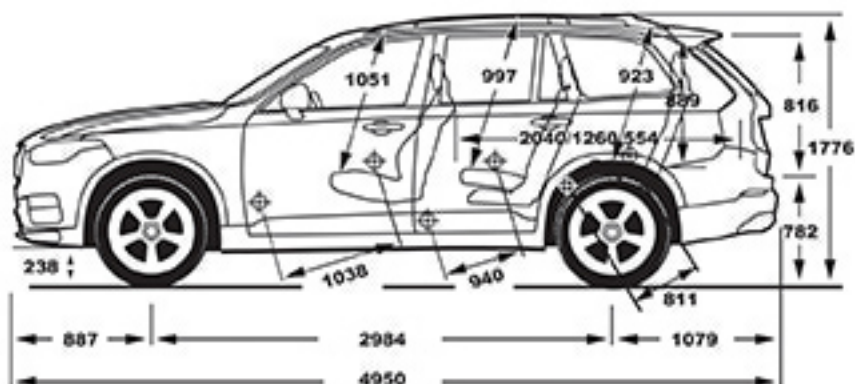

Volvo is synonymous with road safety. We put our first safety cage into production in 1944, and created the three-point safety belt back in 1959. And we're still innovating today. Prepared front safety belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur.

The sculpted front seats are more than just beautiful to look at. Their unique structure helps to absorb vertical impacts, helping to protect your spine if the car lands heavily after leaving the road or becoming airborne. It's another example of how we make every part of a Volvo work harder for your safety, position should one occur.
